Statement on REACH, RoHS and conflict material

KRAMAR Controls GmbH conducts supplier surveys at regular intervals on the guidelines and regulations listed below. According to the current state of knowledge, we can comment on this as follows:

1st Regulation (EC) No. 1907/2006 (REACH)

With regard to communication in accordance with Article 33 of Regulation (EC) No. 1907/2006 (REACH), we can state that, based on the information available to us from upstream suppliers, it is not necessary to notify substances from Annex XIV of the REACH Regulation or the so-called candidate list. The list of candidates for Annex XIV is being dynamically expanded, so that reference can only be made here to the substances currently included.

Furthermore, we confirm the compliance with the restrictions listed in Annex XVII REACH-VO.

2nd EU Directive RoHS (2011/65/EU)

We hereby confirm that our delivered products meet the requirements of the RoHS Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

The substances affected by the directive are:

| Substance | Limit value | Addition |
|---------------------------------------|-------------|---|
| Lead | 0,1 % | The limit values apply to homogeneous materials in weight percent |
| Mercury | 0,1 % | |
| Cadmium | 0,01 % | |
| Hexavalent chromium | 0,1 % | |
| Polybrominated biphenyls (PBB) | 0,1 % | |
| Polybrominated diphenyl ethers (PBDE) | 0,1 % | |

3. Conflict minerals - Dodd-Frank Act

We hereby confirm that our delivered products do not contain any materials originating from or obtained in the Democratic Republic of Congo and neighbouring countries.

The materials in focus are tin (Sn), tantalum (Ta), tungsten (W) and gold (Au).

This statement is based on the current state of knowledge after checking the available manufacturer or supplier information, which we carry out at regular intervals.
